Pursuant to §65.0220 of the “San Diego Maintenance Assessment District Procedural Ordinance” (being Division 2, Article 5, Chapter 6 of the San Diego Municipal Code), and in accordance with Resolution No. _____, adopted by the CITY COUNCIL OF THE CITY OF SAN DIEGO, COUNTY OF SAN DIEGO, STATE OF CALIFORNIA, in connection with the annual proceedings for BARRIO LOGAN MAINTENANCE ASSESSMENT DISTRICT, Koppel & Gruber Public Finance, as District Administrator to the City of San Diego, submits herewith this annual report for the District.

DATE OF FINAL PASSAGE OF THE CITY OF SAN DIEGO, COUNTY OF SAN DIEGO, STATE OF CALIFORNIA, ON THE _____ DAY OF _____, 2022.

Elizabeth Maland, City Clerk
City of San Diego
State of California

SECTION I. EXECUTIVE SUMMARY

Project: Barrio Logan Maintenance Assessment District (“District”)

Apportionment Method: Linear Front Foot (“LFF”)
Lot Square Footage (“LSF”)
Building Square Footage (“BSF”)

TABLE 1-SUMMARY INFORMATION

	FY 2022	FY 2023 (1)	Maximum Authorized
Total Parcels Assessed:	318	318	318
Unit Assessment Rates			
\$/LFF	\$5.5400	\$5.5400	\$7.0222
\$/LFF (Single Family Residences)	\$1.8500	\$1.8500	\$2.3450
\$/BSF (Class A) (2)	\$0.1400	\$0.1400	\$0.1775
\$/BSF (Class B) (2)	\$0.0700	\$0.0700	\$0.0887
\$/BSF (Class F) (2)	\$0.0350	\$0.0350	\$0.0444
\$/BSF (Class K) (2)	\$0.2000	\$0.2000	\$0.2535
\$/LSF	\$0.0319	\$0.0319	\$0.0404

1. FY 2022 is the City’s Fiscal Year 2023, which begins July 1, 2022 and ends June 30, 2023.
2. Classifications are further described in Section V.B. of this Annual Report.

Annual Cost Indexing: The assessments are authorized to increase by the annual change in the San Diego Area Consumer Price Index (the SDCPI-U) not to exceed 5% of the previous year’s rate beginning in Fiscal Year 2014.

SECTION II. BACKGROUND

A. INTRODUCTION

The Barrio Logan Maintenance Assessment District, formerly known as “Barrio Logan Community Benefit Maintenance Assessment District of 2012” was established by Resolution R-307889 of the City Council on November 27, 2012. The District was formed in compliance with the provisions of Proposition 218. An assessment ballot proceeding was conducted and a weighted majority of property owners, based on assessment amount, were in support of the assessments, services and improvements the assessments fund.

On July 22, 2016, the City of San Diego passed R-310617 authorizing the annual budget and assessments for Fiscal Year 2017, and the continued levy of the assessments for the life of the District.

The District is authorized and administered under the provisions of the “San Diego Maintenance Assessment District Procedural Ordinance” (being Division 2, Article 5, Chapter 6 of the San Diego Municipal Code). This annual report has been prepared pursuant to the requirements of §65.0220 of the “*San Diego Maintenance Assessment District Procedural Ordinance*”.

SECTION III. PLANS AND SPECIFICATION

A. GENERAL DESCRIPTION OF THE DISTRICT

The District is located within the Barrio Logan Community and consists of all lots, parcels and subdivisions of land as shown on the Boundary Diagram titled “Map of Proposed Boundaries of the City of San Diego Barrio Logan Community Benefit Maintenance Assessment District of 2012” contained within this Annual Report in Exhibit A.

The District generally includes those parcels that front the following street sections as described in table 2 below.

TABLE 2 - STREET SECTIONS TO BE SERVICED/MAINTAINED

Street Name	From - To	Side of streets
Commercial Street	Logan Ave to Interstate 5	South side only
17 th Street	Commercial St to Logan Ave	Both sides
Logan Avenue	16 th St running eastward to east side of Chicano Park up to southbound I-5 on-ramp and Coronado bridge off-ramp	Both sides
National Avenue	16 th St running eastward to Sampson St, west side of street and including the building currently occupied by Bank of America and adjacent parking lot (Parcel # 538-690-037)	Both sides up to the west side of Sampson St and then including the parcel at the southeast corner of the intersection of Sampson St and National Ave
Newton Avenue	16 th St running eastward to four corners of Sampson St, continuing on the south side of Newton Ave up to the parcel at the southwestern corner of Sicard St and Newton Ave (Parcel #538-703-009)	Both sides of Newton Ave from 16 th St to Sampson St, and then the south side of Newton Ave from Sampson St to Sicard St
Main Street	Dead end at far west end of Main St running eastward to Sicard St on both sides, and then only on the south side from Sicard St to Schley St	Both sides of St from dead end on the west end to Sicard St and then South side from Sicard St to Schley St.
16 th Street	Newton Ave to Logan Ave	South side only
Sigsbee Street	Harbor Dr northward to the dead end near Interstate 5	Both sides
Beardsley Street	Harbor Dr northward to Logan Ave	Both sides
Cesar Chavez Parkway	Harbor Dr northward to I-5	Both sides
Evans Street	Main St northward to midblock of National Ave / Logan Ave, including up to parcels 538-560-029 and 538-560-034	Both sides

Street Name	From - To	Side of streets
Sampson Street	Harbor Drive northward to the three corner parcels at the intersection of Sampson St and National Ave (excluding the parcel at the northeast corner of the intersection)	Both sides
Sicard Street	Main St northward to Newton Ave	West side only
Schley Street	Railroad tracks northward to Main St	West side only
Dewey Street	Newton Ave to National Ave	Both sides

B. DESCRIPTION OF IMPROVEMENTS TO BE MAINTAINED AND SERVICES

The District, through the levy of special assessments, provides funding for ongoing maintenance, operation and servicing of landscaping, sidewalk and gutters, trash removal, graffiti abatement and other improvements or appurtenant facilities located within the public rights-of-ways and dedicated easements located within the District. Additionally, the special assessments will also fund cleaning, maintenance and energy costs for a community identification sign(s) and other district identity improvements, security patrols for special events, community enhancement and economic development programs throughout the District Boundaries. The improvements (“Improvements”) maintained and services (“Services”) provided by the District are generally described as follows:

Sidewalk Operations Improvements and Services

- Maintaining of the public rights-of-way through sidewalk and gutter sweeping;
- Sidewalk steam cleaning;
- Tree and vegetation planting, watering, and trimming;
- Graffiti clean-up within 24 hours as necessary;
- Enhanced trash emptying;
- Dealing with homeless and vagrancy issues; and
- Special events maintenance and security.

District Identity Improvements and Services

- Landmark, & Gateway sign development and maintenance;
- Public safety programs and security;
- Community enhancement and economic development Programs including special events and holiday decorations; and
- Branding of Barrio Logan through signage, logo, brochures, advertising and public relations programs.

Program Management/Incidentals/Administration/Contingency Services

- Staff and administration and Insurance costs;
- Office related expenses including rent;
- Financial reporting, accounting and legal costs;
- Project and Contingency Reserves;
- City and County Administration Costs; and

- Reimbursement of formation costs including district management corporation set up costs in first fiscal year assessments only.

The following specialized Improvements and Services will be provided to residential condominium projects only within the District due to their unique parcel status (such as limited street front footage) and multi-family homeowner status:

Residential Condominium Improvements and Services

- Installation, stocking and upkeep of pet waste-distribution stations on the frontages adjacent to the parcels with high concentrations of residential condos;
- Enhancement and beautification of sidewalks on the frontages adjacent to the parcels with high concentrations of residential condos;
- Installation of hanging plants, planters and tree planting and upkeep in the sidewalks surrounding these parcels with high concentrations of residential condos;
- Administrative services related to the delivery of these services, and a portion of the contingency reserve budget.

Plans and specifications for these Improvements to be maintained by the District, with the exception of the gateway entry sign, will be on file with the Project Manager of the City of San Diego City Economic Department Office after the establishment of the non-profit management Entity that will manage the Improvements and Services and by reference are made part of this Report. Specifically for the gateway entry sign, engineering drawings for the improvements to be maintained by the District shall be on file at Map and Records in the Development Services Department upon completion. Improvements and services provided by the District will be maintained in accordance with specifications and contracts shall be on file with the Economic Development Division.

SECTION IV. ESTIMATE OF COSTS

Estimated Fiscal Year 2023 annual expenses, revenues, reserves and assessments are included in Exhibit B.

SECTION V. METHOD OF APPORTIONMENT

A. SPECIAL BENEFIT ANALYSIS

Proper maintenance and servicing of landscaping, sidewalk and gutter sweeping, sidewalk washing, security patrols for special events, trash removal, and graffiti abatement provide special benefit to properties within the District by providing community character, security, safety and vitality. In addition, the Improvements will enhance the ability of property owners to attract and maintain customers as well as increase the viability of commercial development. These special benefits are benefits that are above and beyond the City’s standard level of service, and exclusive of those “general benefits” provided to the public at large or properties located outside the District. Under applicable law, only “special benefits” are assessable. As such, separation and quantification of the “special benefits” associated with the improvements/services are illustrated in the following equations:

$$\text{Special Benefits} = \text{Total Benefits} - \text{General Benefits}$$

$$\text{General Benefits} = \text{City Standard} + \text{External Benefits}$$

$$\text{Special Benefits} = \text{Total Benefits} - [\text{City Standard} + \text{External Benefits}]$$

In these equations, “Total Benefits” refers to the cost of providing the total benefits of the improvements/services; “City Standard” represents the cost of providing the City’s standard level of service; and “External Benefits” refers to the cost of those additional benefits accruing to the public at large or properties located outside the District. In order to isolate the “Special Benefits,” it is necessary to quantify the amount of “General Benefits” associated with the improvements/services.

CITY STANDARD

The City did not provide any of the proposed Improvements and Services within the District at the time of formation of the District. The District will continue to receive the standard level of service provided to the public at large under City-funded and administered programs. These cost and service allocations, reviewed and adjusted annually by the City, are representative of the City’s standard level of service for maintenance and servicing of public facilities and improvements (e.g., medians, open space, street lights, street trees, sidewalks, parks, etc.), including street sweeping and graffiti removal on public property. With or without the proposed assessment District, the area will continue to receive the City’s standard level of services, a “general benefit” that is not funded by assessments.

SPECIAL BENEFIT

Parcels within the District receive a special benefit resulting from the Services and Improvement provided with the assessments. Specifically the special benefits are summarized as follows:

- Improved cleanliness and maintenance of sidewalks used to access property in the District.
- Enhanced cleanliness and desirability of the area, including removal of litter and debris from sidewalks and other public facilities for the direct advantage of property in the District.
- Protection and improvement of views, scenery and other permanent public facility resources value for property in the District and preservation of public assets maintained by the District.
- Enhanced safety of property in the District and reduced liability risk.
- Improved access to property in the District due to cleaner and safer sidewalks and improved security.
- Improved nighttime visibility for the local access of emergency vehicles.
- Increased deterrence of crime and aid to police and emergency vehicles.
- Improved traffic flow and commerce to properties within the area.

In addition, only parcels that front the streets on which services are provided are included in the District. Therefore, property within the boundaries of the District enjoy a unique and valuable proximity and access to the Improvements which provides a direct and special benefit to the properties that are not enjoyed by the public at large or property outside of the District.

GENERAL BENEFIT

Applicable law prohibits levying assessments to pay for “general benefits” conferred to the public at large or properties located outside the District. Public safety benefits of the improvements may accrue to persons traveling through the improvements (incidental beneficiaries). Based on a review of the spatial limits of the District and the proposed improvements/services, it has been determined that the maintenance and servicing of the improvements does not confer benefit to properties outside District.

Because the Improvements are specifically designed to serve the parcels located within the boundaries of the District and the Services would not be provided without the formation of the District, a major portion of the benefit is special and only minimally received by properties located outside of the District or the public at large. However, certain properties at the outskirts and outside of the District boundaries, mainly located on the north eastern section of the District along portions of Logan Ave, National Ave, Newton Ave, Sicard Street and 26th Street (see Section VI District Diagram), may receive some benefit from the Improvements and Services and this portion has been calculated separately and excluded from the apportionment of costs allocated to properties receiving special benefit. These

properties include parcels that are either not adjacent to streets being serviced or are not located on the same side of the street being maintained (unlike all the properties located in the District which are directly adjacent to the street side being serviced.) A reduction factor of 50% is applied to these properties since they are not adjacent to areas being Improved and Serviced by the District. Note that the 50% reduction is a conservative estimate based on two factors: 1. Many of these properties are not included on either side of the street being maintained; and, 2. Certain property types located at the outskirts of the District, such as industrial land uses, may experience additional foot traffic within their proximity which may actually be a negative impact on their business making it harder for truck traffic, production and sales.

The general benefit for properties located outside and on the outskirts of the District is calculated based on acreage square footage as follows:

Total square footage of parcels on the outskirts of the District = 686,186

Total square footage of parcels located within the District = 4,181,970

50% relative benefit compared to properties located within the District

General Benefit to outskirt properties = $686,186 / (686,186 + 4,181,970) * .50 = 7.05\%$

The benefit to the public at large and parcels located beyond the outskirts of the District was calculated based on certain census data and other factors as set forth in Table 3. This results in a general benefit to the Public at Large of 3.10%.

TABLE 3 – GENERAL BENEFIT TO PUBLIC AT LARGE

Working Population within the District ¹	Non Working Population ²	Total Population	Percentage of Population working and living within the District	Remaining Percentage	Reduction Factor	General Benefit to Public at Large
625 +	3,302 ÷	4,330	90.69%	9.31%	66.67%	3.10%

Data Source: SANDAG as compiled from US Census Bureau's 2000 Census Summary Files 1 and 3 for Barrio Logan Community Planning Area
2010 SANDAG Population and Housing Estimates for the Barrio Logan Community Planning Area.

1. Represents workers who travel less than 20 minutes to work and workers that walked to work

2. Calculated by subtracting working population from total population

Combining both the general benefit to properties located on the outskirts the District (7.05%) and the external benefit to the public at large (3.10%) results in total general benefit of 10.15%. Thus the budget reflects a minimum 10.15% General Benefit.

B. ASSESSMENT METHODOLOGY

To establish the special benefit to the individual lots and parcels within the District a formula that spreads the costs of the maintenance based on the special benefit must be

established. At the time of formation, the Improvements were reviewed and a formula was established to apportion the maintenance costs based on benefit.

Due to the nature of the Services and Improvements, three factors, as further described below, are used to calculate each parcel's assessment based on the budgeted services as more thoroughly described below.

Linear Front Footage Factor

The Linear Front Footage (LFF) is a measure of a parcel's proportionate share of the total LFF length of the public right-of-way for which the District is providing enhanced and increased maintenance, beautification, and other property related Services provided by the District. This is used to allocate the Sidewalk Operation Improvements and Services.

Lot Square Footage Factor

The Lot Square Footage (LSF) is a measure of a parcel's proportionate area of ownership or stakeholder interest relative to the total area of the District, which is receiving enhanced and increased maintenance, beautification, and other property related Services provided by the District. This is used to allocate the Program Management, Incidentals, Administration, and Contingency Services.

Building Square Footage Factor

The Building Square Footage (BSF) is a measure of a parcel's proportionate contribution to the intensity of use of the public right-of-way and is used to allocate the District Identity Services costs.

The land use classification for each parcel within the District has been identified and distinguished as follows in Table 4 based on anticipated benefit from the building type and use:

**TABLE 4
CLASSIFICATION OF PARCELS**

Class	Description
Building square footage is factored into the assessment formula for the following property types that will benefit from District Identity Services:	
A	Retail space; restaurant, bar, grocery store, coffee shop, walk in traffic related services
B	Office, higher education, commercial condo, parking structures available to public use
F	Multi-unit housing (for profit)
K	Residential Condo Units
Building square footage is not factored into the assessment formula for the following property types ¹ :	
C	Industrial, warehouse, manufacturing, distribution
D	Institutional (health, schools, tax-exempt), non-profit related
G	Government building

H	Single family housing units
I	Parking garages (for private use/not available for public parking)
J	Churches

1. These land uses are not deemed to receive special benefit from promotional services of the Barrio Logan area and therefore building square footage is not utilized in calculating the assessment.

Summary of Assessment Rates based on Allocation Factors and Land Use Classifications

Sidewalk Operations Services Allocation

The cost of Sidewalk operations includes both the labor and materials and is allocated to the parcels based on linear front footage factors. Single-family residential properties in the District will receive service 1.0 - 1.5 times per week as compared to 3.0-4.5 times for week for all other property types (with the exception of residential condominiums) which equates to 1/3 the level of service. Based on the differing levels of service and thus different special benefit levels, the following two rates are applied to the front footage calculated for each parcel - \$1.85 for parcels classified as single family units and \$5.54 for all other property types except residential condominiums which is discussed below.

District Identity Services Allocation

The cost for District Identity Services are allocated to properties within the District based on building square footage size. Upon analyzing the building land uses that receive special benefit from these services (see Table 4 above) it was determined that there are three special benefit factors: Type A land uses (Retail, Restaurant, etc.) are deemed to receive the greatest benefit from promotion of the Barrio Logan area and increased traffic flow and therefore received a factor of 4 in order to reflect the highest level of special benefit. The Type B land uses will also receive increased benefit and were assigned a factor of 2. The Type F land uses while still receiving a special benefit but not the same degree of the other land uses were assigned a factor of 1. The base rate is multiplied by the appropriate factor resulting in the following building square foot rates:

**TABLE 5
BUILDING SQUARE FOOT RATES**

Class	Factor
A	4
B	2
F	1

Program Management/Incidentals/Administration/Contingency Services

These costs are necessary to provide the other services required to manage the maintenance program and administer the District. Therefore, these costs along with 25% of the District Identity Services budget are allocated to the parcels located within the District on the lots square footage factor.

Residential Condominiums

Residential condominiums located within the boundaries of the District are provided their own unique enhanced services and budget (see Section IIIB above) which is allocated to the units based on the units building square footage. Retail spaces located within a condominium project are assessed based on the retail space's lot size, street frontage, and building square footage.

Single Family Residences

Single family residences defined as up to four (4) units located on a single Assessor's Parcel will be assessed for their linear front footage only at a reduced rate due to lower frequency of Sidewalk Operation services described above. It is assumed that single family residences will not specially benefit from District Identity Services and therefore are not being assessed for these services.

Chicano Park

Chicano Park, a city park receiving benefit from the Sidewalk Operation services will be assessed on linear front footage and lot square footage only. Similar to single family residences up to four (4) units, it assumed that the park property will not receive a special benefit from District Identity services.

SAMPLE CALCULATIONS

As described above, assessments have been calculated for each parcel based on the LFF of the property along the improvement/service corridor, the LSF and the BSF for land use classifications A through F.

LFF = Linear Front Footage
LSF = Lot Square Footage
BSF = Building Square Footage

Shown below are calculations utilizing the Maximum Authorized Assessments for various sample parcels.

- **Retail Property (Class A) with 50-foot frontage, 2,400 square feet of building on .10 acres**
LFF = 50.00 LFF *\$6.0537/linear foot
LSF= 4,356 LSF*\$0.0348/square foot
BSF= 2,400 BSF*\$0.1530/square foot
- **Single Family Residential Property with 32-foot frontage, 1,400 square foot house on .08 acres**
LFF = 32.00 LFF*\$2.0215/linear foot
LSF= 3,485 LSF*\$0 (Not assessed based on method of apportionment)
BSF= 1,400 BSF*\$0 (Not assessed based on method of apportionment)

The total assessment for each parcel in the District is based on the calculated LFF, LSF and BSF for the parcel and the applicable unit assessment rate, as shown in the following equation:

$$\text{Total Assessment} = \text{Total LFF} \times \text{LFF Assessment Rate} + \text{Total LSF} \times \text{LSF Assessment Rate} + \text{Total BSF (Class A – F)} \times \text{BSF Assessment Rate (Single Family \& Condo subject to above provisions)}$$

C. ASSESSMENT RANGE FORMULA

The purpose of establishing an Assessment Range Formula is to provide for reasonable increases and inflationary adjustment to annual assessments without requiring the District to go through the requirements of Proposition 218 in order to get a small increase. This Assessment Range Formula was approved by the property owners at the time the District was formed. If the budget and assessments calculated at that time requires an increase greater than the adjusted Maximum Assessment, then the assessment is considered an increased assessment and would be subject to Proposition 218 balloting.

The maximum authorized assessment established in the FY 2013 formation are authorized to be indexed (increased or decreased) annually, starting in FY 2014, by the factor published in the SDCPI-U not to exceed 5%. In the event that the annual change in SDCPI-U exceeds 5%, a percentage change in excess of 5% can be cumulatively reserved and can be added to the annual change in the SDCPI-U for years in which the SDCPI-U is less than 5%. The annual change in second half SDCPI-U values, as compiled by the U.S. Bureau of Labor Statistics (see www.bls.gov), for the prior year period was from 305.823 to 325.241 (a 6.35% increase). In accordance with the approved cost-indexing provisions, the maximum authorized assessment rates contained within this Annual Report have been increased by 5.00%.

The Maximum Assessment is adjusted annually and is calculated independent of the District's annual budget and proposed annual assessment. Any proposed annual assessment is not considered an increased assessment, even if the proposed assessment is greater than the assessment applied in the prior fiscal year.

EXHIBIT A - DISTRICT BOUNDARY

The parcels within the Barrio Logan Maintenance Assessment District consist of all lots, parcels depicted within the boundaries of the District. The District diagram reflecting the exterior boundaries of the District is on file with the City Clerk.
